

### 3. USB AROMATHERAPY OIL BURNER

Aromatherapy has been proven to soothe the body, soul, and mind, and you can now experience its calming effects without the need for a traditional candle oil burner. The USB Fragrance Oil Drive does the job perfectly, where all you need is just 3 to 5 drops of your preferred essential oil that will last throughout the entire working day, taking away some of the stress whenever your boss yells at you for your colleagues shortcomings just because you are not a boot licker. The USB Fragrance Oil Drive shares roughly the same dimensions as a USB flash drive.

COSTS: Rs.500
